Kelinci ingin makan wortel setiap hari. "Aku akan menanamnya sendiri," katanya.

Rabbit wants to eat carrots every day. "I will plant them myself," she says.

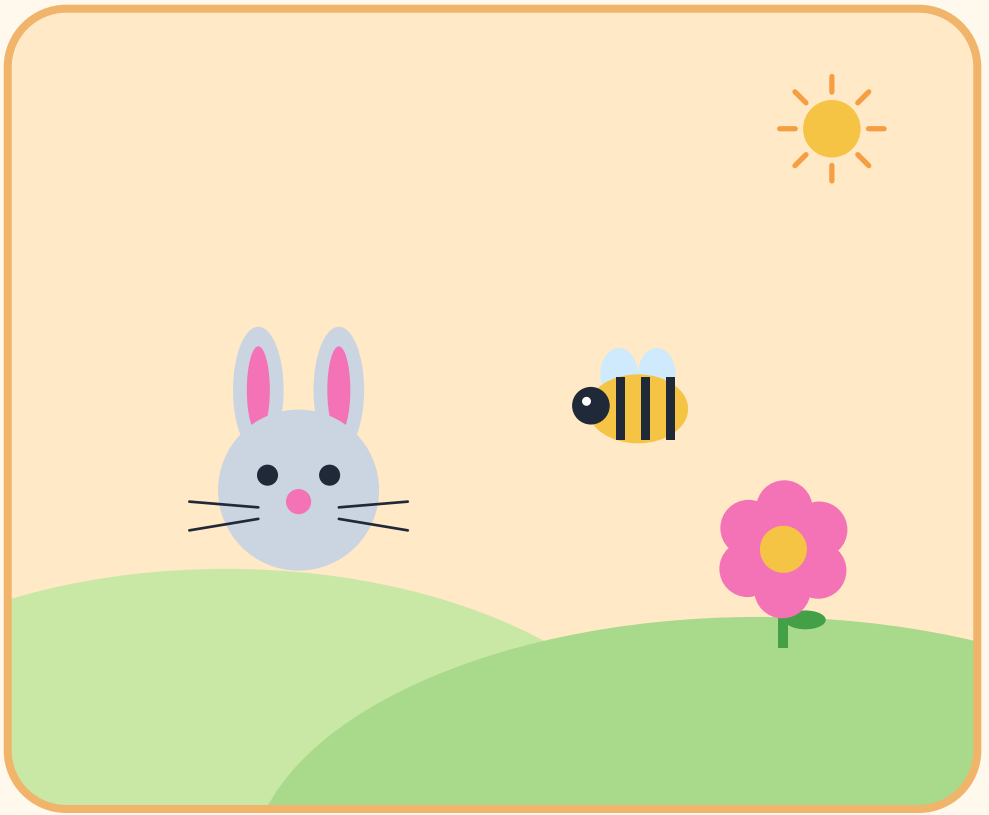

Ia menggali tanah dan menanam biji kecil. Lalu ia menyiramnya dengan hati-hati.

She digs the soil and plants a tiny seed. Then she waters it carefully.

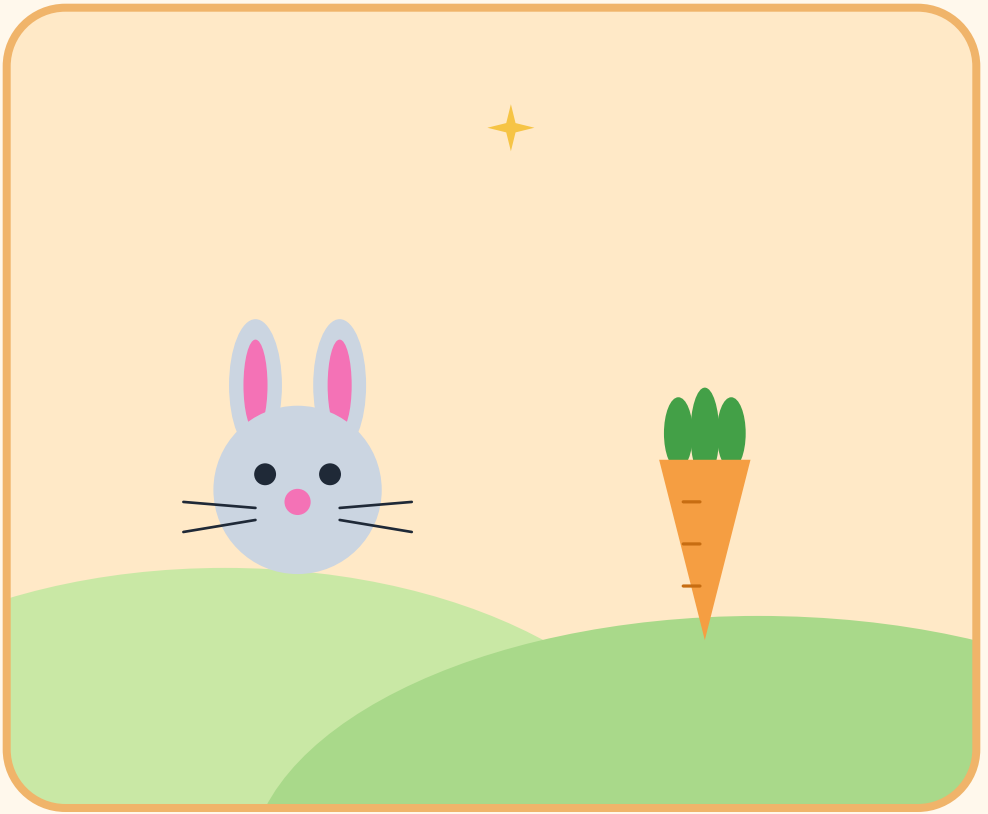

Esok harinya, belum ada apa-apa. "Mungkin wortelnya malas," kata Kelinci. Tetapi ia terus menyiram.

The next day, nothing. "Maybe the carrot is lazy," said Rabbit. But she kept watering.

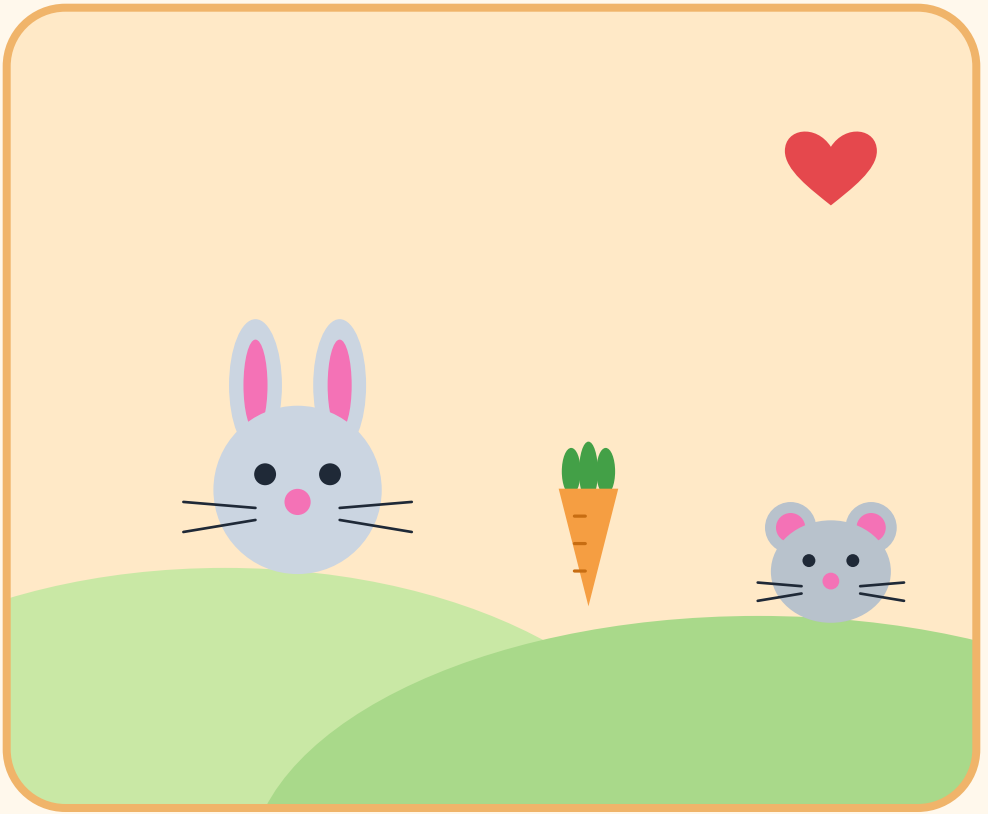

Seminggu berlalu. Tunas hijau muncul! Lebah datang dan berdengung gembira.

A week passed. A green sprout appeared! A bee came and buzzed happily.

Beberapa minggu kemudian, wortel-wortel oranye sudah besar. Kelinci mencabutnya satu per satu.

A few weeks later, the orange carrots had grown big. Rabbit pulled them up one by one.

Kelinci membagi wortelnya dengan Tikus. Wortel buatan sendiri terasa paling manis.

Rabbit shared the carrots with Mouse. Carrots you grow yourself taste the sweetest.
